Internally plastered masonry and fair face block walls and traditional finishes.  The main building comprises traditional construction dating to 1900. The pitched roof slopes are natural blue slate clad with faced brickwork external walling. Some of the original timber window frames have been replaced by PVCu sections. Again, the original cast iron rainwater goods have generally been replaced with PVCu. The more recent extension additions are of similar construction with generally single glazed PVCu windows and aluminium rainwater goods.	Academy Leasehold		13690
