

# The People Network

- Social networking for the disconnected
- Accessible via Forms, Telephone, Web
- In public places, and services where socially isolated users may visit.

# Designed for people not engineers

- Interface designed so users do not need to be technology savvy.
- Data can be entered over the phone, via paper form or app.

# Bringing the gap to the isolated

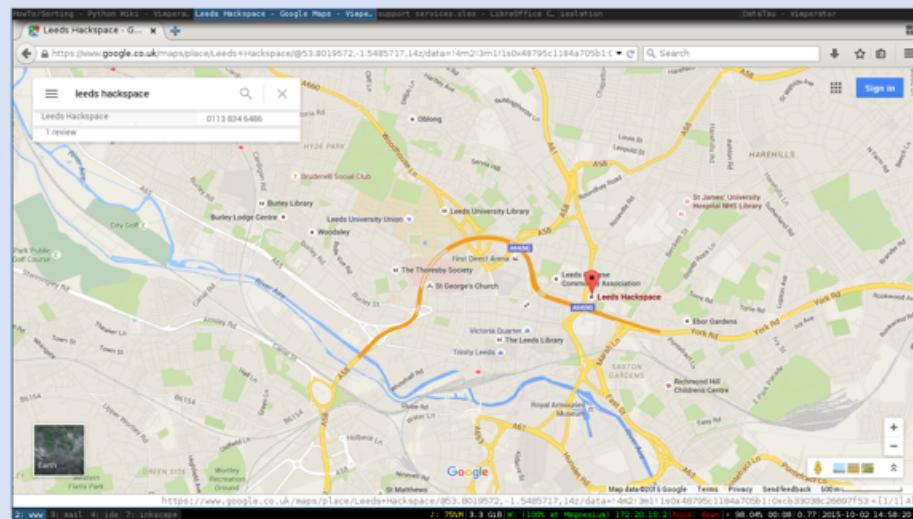

- Using volunteers to engage people in safe environments
- Eg, Supermarkets, Access Bus, GP, Jobshop
- We have an initial list of service centers
- Grown from self registration
- Appeal to charities/ CSR Schemes.
