LOCATIONS WITH FREE WIFI

- ⚫ Areas with greatest digital divide
- 🟢 WiFi already available
- 🔵 WiFi available imminently
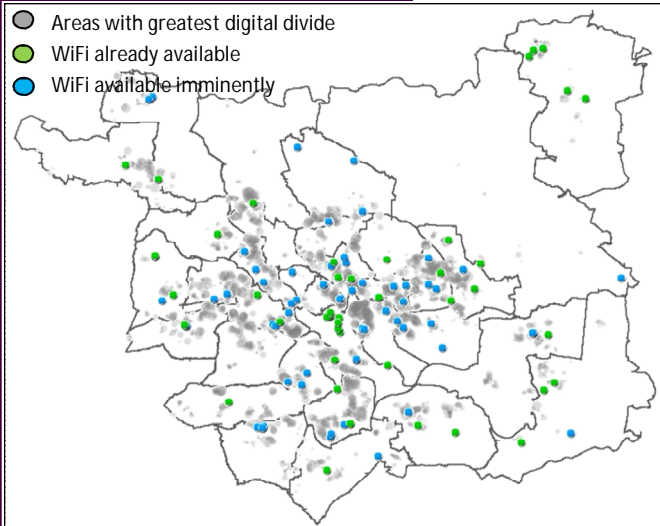

Everything, it seems is going online. This is great if you are comfortable with computers and if you can afford to pay for broadband. If not, you may find yourself on the wrong side of the 'digital divide' - those who are online, and those who are not. Leeds City Council is rolling out free public WiFi access across its estate to enable more people to realise the potential of what is available digitally. Leeds Data Mill is building on this by offering courses to help people feel more comfortable about data and the online world. **Find out more on this blog by following the link:**

THE LOWDOWN

93
Number of council buildings fitted with free WiFi

21
Number of council buildings awaiting completion

3413
Average number of times free WiFi is accessed
(03/02/15 —10/02/15)

17
Average number of minutes per session
(03/02/15 —10/02/15)

LEEDS EMPTIES WINS FUNDING

Leeds Empties is a social enterprise which works with owners of empty homes to bring them back into use. We are funded by Leeds City Council – and work alongside their Empty Homes Team to offer intensive support to owners of empty homes in Leeds – 90% of which are privately owned.

Check out further details on this project on Leeds data mill at:
