

Date of Meeting: 25th November 2020

Paper Author: Claire Riley

Paper Title: An analysis of 2019/20 Payments to the

Third Sector

Briefing note to the Third Sector Partnership

1. Purpose

- 1.1. This report provides an overview of the scale and nature of the Council's payments to and business in 2019/20 with the Third Sector (also known as the voluntary, community and social enterprise sector).
- 1.2. It also confirms the Council's intentions to publish details of grant payments to organisations within the Sector as part of the transparency agenda.
- 2. Background information and the scale of business with the Third Sector.
- 2.1. In categorising organisations as belonging to the Third Sector, the Council continues to be guided by a wide-ranging, inclusive definition drafted a few years ago by the former Office of the Third Sector (now the Office for Civil Society). This indicates that the Third Sector includes charities, community groups, churches and faith groups, sports and recreational clubs, social enterprises and partnerships and trade unions and associations.
- 2.2. The Council's payments to the Third Sector involves tens of thousands of transactions including grant payments, funding for projects, activities and events, procurement of goods and services and the commissioning of services. They include spending from both revenue and capital budgets; some of which will be from external sources for example, grants that the Council and its partners have been awarded because of successful bids for funding. The transactions are taken from FMS (the council's financial ledger). Third Sector payments are 'flagged' with a 310 reference to make them identifiable within FMS.
- 2.3. However, it should be noted, as in previous years, that given the volume of data, the total costs and transactions identified as 'Third Sector' may not be fully reflective of all payments made to Third Sector Organisations; some payments may be paid through different categorisations within the financial ledger. In addition, it may be that some payments and / or organisations should not be included as they have been flagged as Third Sector in error.

A review and comparison to previous years suggests further 'flag' errors would be at the margin but further data cleansing will continue to be highlighted to colleagues in BSC in an endeavour to re-categorise organisations for future analysis. 2.4. As reported last year, the analysis includes Aspire, and you are asked to note that payments to Aspire are larger than any other 3rd sector organisation at £24.2m in 2019/20. Overall Leeds City Council's total spend with third sector (flagged as 310) organisations totalled £130.5m. The total spend with organisations other than Aspire amounted to £106.3m.

In 2018/19 the payments to the third sector amounted to £127.2m. The total spend with organisations other than Aspire amounted to £105.75m.

Overall, spending with the third sector is comparable year on year and this is outlined in Appendix A.

2.5. Appendix A summarises the total business with the Sector in each of the last 11 years. This shows how the Council's spend with the sector, excluding Aspire fell from a peak of £123.4m in 2009/10 reflecting the impact of the government's austerity programme and its significant cuts in local government funding in subsequent years to £106.3m (excluding Aspire) in 2019/20.

It should be noted that the scale and stability of the Council's business with the sector has been broadly maintained in a period of very challenging financial circumstances for the Council.

Between the 2010/11 and 2020/21 budgets, the Council's core settlement funding from Government has reduced by around £263m, or nearly 60%

Inevitably, managing the large reduction in Government funding combined with increasing cost pressures has meant that the Council has had to make some difficult decisions around the level and quality of services that it delivers and it will become increasingly difficult over the coming years to identify further financial savings without significant changes in what the Council does and how it does it. This will have significant implications for directly provided services and those commissioned by the Local Authority, impacting upon staff, partners and service users. In order to deliver the Council's ambitions of tackling poverty and reducing inequalities, consideration may have to be given to stopping, delivering differently or charging for those services that are no longer affordable and are a lesser priority than others. This will be achieved through a continuing process of policy and service reviews across the Council's functions and ongoing consultation and engagement.

Table 1 Decrease in settlement funding 2010/11 to 2020/21

2.6. Despite the challenging financial horizon the scope of the Council's business with the Sector has remained quite consistent with that of recent years, with the total value of payments made to Third Sector organisations at £130.5m.

The analysis of 2019/20 data does indicate a reduction in the total number of organisations being paid but most of this reduction is attributed to the 'data cleansing' that has been undertaken.

Year	Number of organisations
2019/20	1,264
2018/19	1,309
2017/18	1,392
2016/17	1,664

2.7. It should be noted that a small number of payments to individual organisations reflect investment where the recipient body administers funds to other groups.

In addition there are a number of individual payments to the lead organisation for a consortium or sub- contracting arrangement, where the partners may not receive any individual payments from the Council and are not therefore currently identified as beneficiaries of investments as part of this analysis. This is noted and reflected in Appendix B.

2.8. Small payments to the sector tends to be to mostly local organisations, such as a one-off grant to a local sports team or scouts troop. In 2019/20 the downward trend of organisations receiving these small sums, continued as 598 organisations received payments under £1k.

Year	Number of organisations receiving payments under £1k
2019/20	598
2018/19	665
2017/18	719
2016/17	747

3. The Council's Major Third Sector Business Partners

3.1. Appendix B lists the 25 organisations receiving the most investment from the Council in 2019/20. This is an established part of the analysis and is referred to as the 'Top 25'.

The list sets out details of the amounts these same organisations were paid in previous years from 2011/12 to 2019/20.

The totality of business with the Top 25 in 2019/20 amounted to £86.6m. Leaving Aspire aside, the other 24 were paid a total of £62.4m. The level of business within the same criteria in the previous year totalled £60.1m.

3.2. In 2019/20, the top 5 organisations remain the same as last year.

4. The Range of Third Sector Providers

- 4.1. Appendix C shows the Council's business with the Third Sector continues to be dominated by payments to a small number of major care and service providers. In comparison, there is a wide population of organisations receiving relatively small amounts from the Council.
- 4.2. As previously discussed, Aspire is an out-rider in terms of the scale of its £24.1m business with the Council. This accounted for 18.5% of the overall business with the sector.

In 2019/20 only ten organisations received total payments between £2m and £9m.

The top 25, including Aspire, were paid an aggregate total of £86.6m which is more than half (67%) of the Council's spend with the Third Sector, which is consistent to the previous year. In percentage terms, this top 25 only constitutes just under 2% of the individual Third Sector organisations that the Council made payments to last year.

In contrast to this concentration of most of the Third Sector spend, with a very small number of large providers, 864 organisations received total payments of less than £1,000 from the Council. These organisations accounted for 0.5% of the Council's business with the Third Sector but represent over half (58.4%) of the Third Sector bodies the Council paid last year. These smaller payments are often to local community, neighbourhood and faith based bodies as well as sporting and cultural groups.

- 4.3. Analysis on the Faith Sector was again undertaken on the established base line, identified in 2017/18. These identified organisations are outlined at Appendix F. It is acknowledged that further analysis is required to ensure that these organisations are accurately classified and that other faith organisations have not been overlooked but the approach has been established for comparison purposes.
- 4.4. Faith Organisations represented 12.5% of the total payments to third sector organisations in 2019/20, this is equivalent to around £16.3m.

5. Spending By Directorates

5.1. Appendix D analyses the 2019/20 spend with the Third Sector in terms of the Directorates incurring the expenditure. Not surprisingly, this shows that the overall spend is primarily driven by the Council's care services: Adults and Health with 29%, Children and Families 9%, and Social Services Pooled Budgets (23.8%) along with spending with Aspire representing 18.5%. Again, consistent with the previous year.

6. Members Improvement in the Community and the Environment scheme (MICE)

- 6.1 Appendix E sets out the Members' Improvement in the Community and the Environment scheme (MICE) money that has been extracted from the total third sector payment data.
- 6.2 Each Councillor receives an annual allocation £2.5k to award, this money can be allocated in year or rolled forward to the next year.

MICE monies administrators have advised the total allocation of all MICE funding and analysis of the 310 categorisation of payments shows that the use of MICE monies in 2019/20 was £153k and represents less than 1% of payments made to the Third Sector.

Year	310 categorisation of MICE	All categorisations of MICE
	monies	monies
2019/20	£153k	£191k
2018/19	£96.6k	£234k
2017/18	£240k	£319k

Please note that there was an election in 2017/18 and therefore MICE expenditure was high as monies could not be 'rolled over' due to the 'all out election'.

7. Publishing Grants to Third Sector Bodies

7.1. The Local Government Transparency Code 2014 stipulates that local authorities should publish details of all grants/payments to Third Sector organisations either in the form of a separate schedule or by tagging grant payments in the published schedules of all financial payments.

7.2. This report represents a draft schedule of all grant payments made to Third Sector bodies in 2019/20 and it is acknowledged that some further data analysis may be required and sense checked prior to publication.

8. The future

- 8.1. The current financial climate for local government continues to present significant risks to the Council's priorities and ambitions, as outlined earlier in this report and is outlined in further detail in the Medium Term Financial Strategy (MTFS). This is one of the key strategies of the Council and is a five year strategy which sets out the Council's commitment to provide services that meet the needs of people locally and that represent good value for money.
- 8.2 The Medium Term Financial Strategy 2021/22 2025/26 was presented to the Executive Board on 24/09/20 (Agenda item 42) and Third Sector partners are asked to take note of this document.
- 8.3 The provisional budget for 2021/22 will be presented to Executive Board in December 2020 and will provide an updated financial position for 2021/22 and the following two years.

APPENDIX A

Distribution Analysis of 2019/20 Third Sector Business

Leeds City Council Total Business With the Third Sector.

	<u>Total</u> <u>Payments</u>	<u>Movement</u> <u>from</u>	Movement as a %
	<u>r dyments</u>	<u>Previous</u>	<u>us u 70</u>
	£М	<u>Year</u> £M	
2019/20	130.5	3.3	2.53%
2018/19	127.2	2.1	1.65%
2017/18	125.1	-7.8	-6.24%
2016/17	132.9	5.8	4.36%
2015/16	127.1	15.1	11.9%
2014/15	112.0	2.8	2.5%
2013/14	109.2	0.6	0.5%
2012/13	108.6	-0.8	-0.7%
2011/12	109.4	-10.5	-9.6%
2010/11	119.9	-3.5	-2.9%
2009/10	123.4	-	-

Note

Payment data analysed above is based on payments made through the creditors system with a 310 marker. Further data cleansing relating to 310 marked organisations may be needed to be undertaken by BSC, however the data has been analysed (2019/20) on a like of like basis, as in previous years.

In 2015/16 Aspire was formed; hence the increase in total payments. To provide comparable data, Aspire would need to be discounted from payment totals: this results in the following payments:

2015/16	£109.3m
2016/17	£110.4m
2017/18	£103.1m
2018/19	£105.75m
2019/20	£106.3m

Comments

The data contained above is representative of the transactions posted through the Creditors system and filtered through Code 310.

It provides only an indication of the number of organisations attributed to the Third Sector, as in previous years, through the Councils Financial Ledger (FMS).

23 organisations received total payments of £1m or more which accounted for 58.5% of all payments made to Third sector businesses. This Is similar to last years analysis.

The highest volume of organisations receiving payments in 2019/20 was 'Between £100 - £499' with 359 organisations receiving payments but this only represents 0.1% of the total payments made.

Last year the highest volume of organisations was 'Between £1k - £5k' with 204 organisations receiving 0.4% of the total payments made.; compared to 266 organisations in 2019/20 receiving 0.4% of total payments made .

The Average aggregate payment to the Third Sector in 2019/20 was £103,271 . An increase from the previous year of £6k

The number of organisations included in the 2019/20 has fallen by 45 from 2018/19. Last years analysis highlighted a reduction in 83 organisation. This can attributed to data cleansing undertaken to reduce duplications / amalgamate creditor payments but further work is always needed.

APPENDIX D 2019/20 Council Directorates
