

1 - Rainfall

The Yorkshire Region has received 162.8% of LTA for September

2 - Reservoirs (surface water supply reservoirs not including Hull)

Over the past week our reservoir stocks have changed by 0.6% to 46.3%

3 - Rivers

Some of our rivers are below critical level

4 - Demand

Regional Demand = 1284 Ml/d (including York)

Data Up To

31 August 2025

This page will normally be updated monthly (approx mid month).

This data may be subject to change following routine validation checks.

Where showing a negative value, this is normal at certain sources, due to the imports of water into that source being greater than the volumes abstracted.

Data Up To

31 August 2025

This page will normally be updated monthly (approx mid month).

This data may be subject to change following routine validation checks.

Where showing a negative value, this is normal at certain sources, due to the imports of water into that source being greater than the volumes abstracted.
